

## LAB. 1-2 420-DW2-AS – Web Client Development (client side)

Create the second html page:

- Use the **DOCTYPE** for **XHTML**. The title page: "**Web Page 1.2**" and save it as **Page2.htm**.
- Add a comment having your name, current date and a short description of your work.
- The next line, after the title: ***The course number 420-DW2-AS*** add the image of Bill Gates, and resize it to have the **width** as 150 pixels, add the image of our Globe with the **width** as of 50%.
- Add a link to the first Web page, and change the color to red and the background color to yellow.
- Add a link to college LaSalle web site, and another link to W3C validator, having one 5 blank spaces between the anchor tags.
- Validate your HTML code with W3C web site tool : <https://validator.w3.org> and upload your files (the web page and the two images) on LEA of Omnivox.

Thank you.
