420-DW2-AS – Web Client Development (client side)
Assignment 1.3 – HTML (Class work)

Create a Web page **CoffeAndTea.html** with similar table like in the image, add the colors to the text and the background, and resize the images to fit the cells of the table by preserving the order. Change the format of the text, replace the FIRST and LAST NAME with your name.

Use inline CSS **style="color:red; background-color:purple;"** to the appropriate elements of the table to modify the table like in the image. Use the hexadecimal notations for the colors for the second and third row of the table.

Black = #000000,	White = #ffffff,	Red = #ff0000,	Green = #00ff00,
Blue = #0000ff,	Yellow = #ffff00,	etc…	

Create the another Web page **index.html** that has a link to the web page with coffee and tea; as well on this web page add another link to go back to the index web page.

Upload the compressed folder with your files by LEA.

Thank you.
