Exercise 1: Table, div and CSS – 80p

Consider the following image:

a: - 25p

Create the XHTML file for this image using table, tr, th, td, div. span, h3, h5, p, img, and input web elements, respecting the format, spacing and colors. Insert your first name on the row before the copyright.

Use the provided images and links to open into a new tab or windows the external web sites for w3c validation (html and css) and by clicking on the screen of the gif image (mapping), opening the page of www.w3schools.com.

```
<img src="compman.gif" alt="programmer" title="programmer" width="100px"
usemap="#CompMan" class="right" />
  <map name="CompMan">
    <area shape="rect" coords="9,7,67,52" href="http://www.w3schools.com"
target="_blank" alt="W3Schools" />
  </map>
```

b: - 25p

Create and use the CSS formatting (external, internal and/or inline) to apply the colors, spacing and alignment of the web elements.

Use colors like: light grey, grey, light blue, blue, and white.

Exercise 2: Multiple choices - 20p
Choose the right answer:

A - What is the correct HTML for making a text input field?
o <textfield>
o <input type="text">
o <textinput type="text">
o <input type="textfield">

B - What is the correct HTML for making a drop-down list?
o <input type="dropdown">
o <input type="list">
o <select>
o <input type="select">

C - What is the correct HTML for a number input field?
o <input type="numfield">
o <input type="num">
o <input type="number">

D - What XHTML code is correct and is "well-formed"?
o <H1>A B <i>short</i> P paragraph</H1>
o <p>A B <i>short P </i> paragraph</p>
o <h5>A B <i>short</i> paragraph P </h5>
o <p>A B <i>short paragraph </i> P </p>

Verify and validate your XHTML and CSS files, correct them if necessary.
Save and send your files using Omnivox (LEA).

Thank you.
